## QUIZ 27 - ICS 415 Fall 2017

Explain what each line in the following JavaScript does.

```
$( document ).ready(function() {  
  
    $.getJSON("apis/get_names_api.php", null, function(data) {  
  
        $("#UsersList option").remove(); // Remove all <option> child tags.  
  
        $("#UsersList").append( // Append an object to the inside of the select box  
  
            $("<option></option>") // Yes you can do this.  
  
                .text('-- Select Name --')  
  
                .val(''  
  
        );  
  
        $.each(data.names, function(index, item) { // Iterates through a collection  
  
            $("#UsersList").append( // Append an object to the inside of the select box  
  
                $("<option></option>") // Yes you can do this.  
  
                    .text(item.Name)  
  
                    .val(item.TID)  
  
            );  
  
        });  
  
    });  
  
});
```
