

Name: _____

QUIZ 2 - ICS 415 Fall 2017

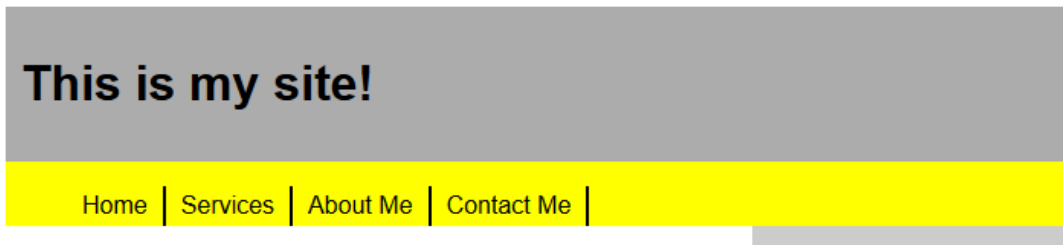

Today we reviewed CSS.

Consider the HTML and CSS on the next page.

It produces a page that looks like this:

1. Change the CSS so the top menu looks like this:

2. Instead of the menu shown just below the header, modify the code so the menu is a set of links to CNN (cnn.com), Google (google.com), Yahoo (yahoo.com) and UH Hawaii (www.hawaii.edu).

3. For the menu on the right, make the menu be links to three different websites that you know of (and different from others in the class). Be sure to give the menu items appropriate names.

```

<!doctype html>
<html>
<head>
<title>Two Column, Header and Footer</title>
<style>
body {
    font-family: arial, helvetica, sans-serif;
}
#container{
    margin: 0 auto;
    width: 100%;
}
#header {
    background-color: #abacab;
    padding: 10px;
}
#menu {
    float: left;
    width: 100%;
    background-color: #0c0c0c;
}
#menu ul li {
    list-style-type: none;
    display: inline;
}
#menu li a {
    display: block;
    text-decoration: none;
    border-right: 2px solid #FFFFFF;
    padding: 3px 10px;
    float: left;
    color: #FFFFFF;
}
#menu li a:hover {
    background-color: #CCCCCC;
}
#mainContainer {
    float: left;
    width: 100%;
}
#content {
    clear: left;
    float: left;
    width: 65%;
    padding: 20px 0;
    margin: 0 0 0 5%;
    display: inline;
}
#sidebar {
    float: right;
    width: 30%;
    padding: 20px 0;
    margin: 0;

```

```

display: inline;
background-color: #CCCCCC;
}
#footer {
    clear: left;
    background-color: #CCCCCC;
    text-align: center;
    padding: 20px;
    height: 1%;
}
</style>

</head>
<body>
<div id="container">
    <div id="header">
        <h1>This is my site!</h1>
    </div> <!-- end header -->
    <div id="menu">
        <ul>
            <li><a href="#">Home</a></li>
            <li><a href="#">Services</a></li>
            <li><a href="#">About Me</a></li>
            <li><a href="#">Contact
Me</a></li>
        </ul>
    </div> <!-- end menu -->
    <div id="mainContainer">
        <div id="content">
            <h2>Here's some content</h2>
            <p>This is where a story would
go</p>
            <h2>Here's more content</h2>
            <p>This is another story</p>
        </div> <!-- end content -->
        <div id="sidebar">
            <h3>Menu</h3>
            <ul>
                <li>Menu item 1</li>
                <li>Menu item 2</li>
                <li>Menu item 3</li>
            </ul>
        </div> <!-- end sidebar -->
        <div id="footer">
            <p>Copyright (c) 2012 Steve
Suehring</p>
        </div> <!-- end footer -->
    </div> <!-- end mainContainer -->
</div> <!-- end container -->
</body>
</html>

```
